IN THE MATTER OF
DISCIPLINARY PROCEEDINGS AGAINST

THOMAS BAYARD FREDERICK, M.D.,

Respondent

ORDER GRANTING STAY

On February 23, 1994, the Medical Examining Board issued its Final Decision and Order in the above-captioned matter. By the terms of the board's order, respondent's license to practice medicine and surgery in Wisconsin was suspended for a period of not less than five years, with provision for successive three-month stays of the suspension conditioned upon compliance with certain conditions and limitations on the license. Among these were that respondent participate in a recognized program for the treatment of chemical dependency, that he participate in individual and/or group therapy a minimum of once each week, that he submit to random urine screens for the presence of alcohol and controlled substances, and that he provide for quarterly written reports from his supervising physician or therapist and the monitoring program. The effective date of the board's Order, a copy of which is attached hereto and made a part hereof, was February 23, 1994.

On June 22, 1994, the board found that with the exception of submission of a therapy report, respondent had not submitted evidence of having complied with the requirements imposed by the February 23, 1994, Order. The therapy report notified the board that respondent had relapsed on one occasion. The board also found that respondent had not requested further stay of the suspension of his license. Accordingly, based upon paragraph 7 of the board's Order, providing that violation of any of the terms of the order or of any law substantially related to the practice of medicine would result in a summary suspension of the respondent's license or the denial of an extension of the stay, the board ordered on July 4, 1994, that the suspension be imposed.

By his letter dated July 19, 1994, Dr. Frederick requested that the stay of suspension of his license be reinstated. He appeared before the board in support of his petition on August 24, 1994, and the board considered the matter on that date.

Based upon Dr. Frederick's petition and other information of record herein, the board orders as follows:
